ABOUT US

For over 25 years Bosky Pens, the flagship brand of Deepak Pen & Sons, has been manufacturing reliable and affordable writing instruments for everyday use. What began as a humble initiative to make quality pens affordable for students and professionals has today evolved into a trusted name.

At Bosky, we believe that a pen is a tool of empowerment that every hand deserves. Whether it is used to learn, create, or to dream, our pens have been helping generations express their thoughts and ideas effortlessly. We have always stood by one simple promise: quality at a price that everyone can afford.

At the heart of Bosky Pens is a mission to make writing accessible to all. We don't just make pens — we craft companions for learning, growth, and expression. Because in every corner of life, big or small, all minds need a pen to note down their brilliant thoughts.
Bosky Pens – Reliable. Affordable. For Everyone.
